

PMIWDC LIST of Committees

Below is a list of PMIWDC committees for which chapter members volunteer their time, efforts, and skills for the benefit of the chapter, PMI, and project management. Thank you!

A separate document includes not only **descriptions** for most committees, but also specific positions under committees. However, keep in mind that the committees listed below might not be available to new volunteers. The **Profile Form** lists only those committees for which we need volunteers, and is required for all volunteers. The Profile Form will be updated as committees become available, or as we add new committees.
